The screenshot displays the JDoodle Online C# Compiler IDE interface. The browser address bar shows the URL `jdoodle.com/compile-c-sharp-online/`. The JDoodle logo and "Online C# Compiler IDE" title are at the top. The main editor contains a C# program:

```
1 using System;
2
3 class Program
4 {
5     static void Main() {
6
7         int x = 10;
8         double y = 25;
9         double z = x + y;
10
11         int w = 4;
12         double u = y / w;
13         double e = y / w;
14
15         Console.WriteLine("suma: " + z);
16         Console.WriteLine("Division: " + u);
17         Console.WriteLine("Division: " + e);
18
19         Console.ReadKey();
20     }
21 }
22
```

Below the code editor, the "Execute Mode, Version, Inputs & Arguments" section shows the compiler version set to `mono-6.12.0`. The "Execute" button is highlighted. The "Result" section displays the output:

```
Result
CPU Time: 0.01 sec(s), Memory: 17768 kilobyte(s)
compiled and executed in 0.917 sec(s)

suma:35
Division:6.25
Division:6.25
```

At the bottom, there are two informational sections:

- Know Your JDoodle**
 - JDoodle supports 76+ languages with multiple versions - [see all](#).
 - With [JDoodle APIs](#), you can execute programs just by making a REST call.
 - With [JDoodle Plugins](#), you can embed an IDE to your website with just 3 lines of code.
 - You can embed the code saved in JDoodle directly into your website/blog - [learn more](#).
 - If you like JDoodle, [please share your love with your friends](#).
 - Fullscreen - side-by-side code and output is available. click the "⌕" icon near execute button to switch.
- JDoodle For Your Organisation**
 - Do you have any specific compiler requirements?
 - Do you want to integrate compilers with your website, webapp, mobile app, courses?
 - Are you looking more features in [JDoodle Plugin](#) and [JDoodle API](#) ?
 - Looking for Multiple Files, Connecting to DB, Debugging, etc.?
 - Are you building any innovative solution for your students or recruitment?
 - Want to run JDoodle in-house?

The Windows taskbar at the bottom shows the date and time as 08:03 on 14/02/2023.
